

TINTOK

The Sustainable Lifestyle

TINTOK

ABOUT TINTOK

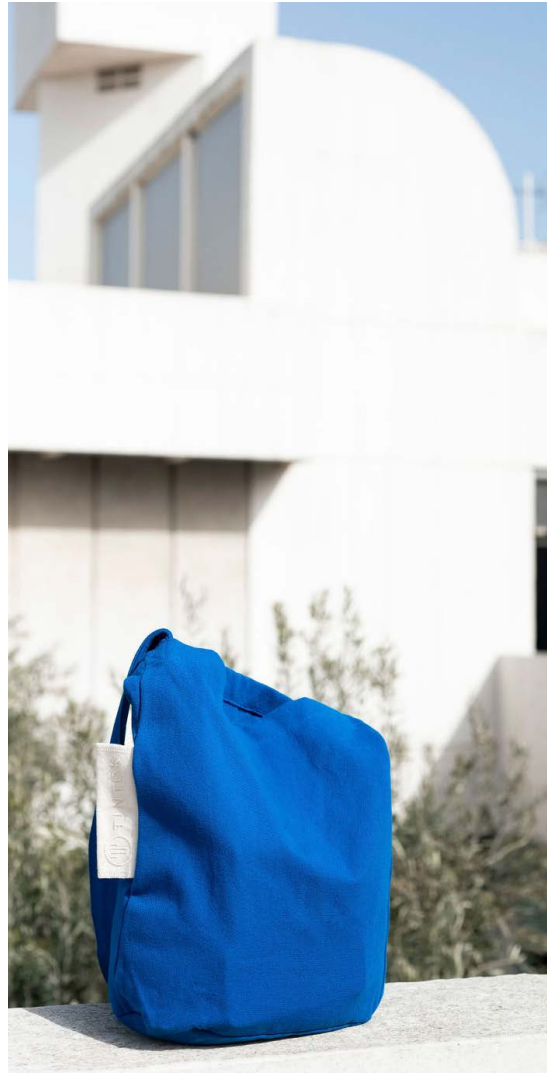

Behind Tintok we stand, Maria and Martin. For several years we have talked about, how we could spread the message of a universe, with ecological, sustainable, slow fashion-made products as a focal point. On a sailing trip from Horsens to Samsø, where we were at anchor on a fantastic summer evening, our heart's child was born: **TINTOK**.

We both have a great fondness for nature, partly on land, but also in water.

Maria grew up partly in Sweden and partly in Skagen, and therefore nature has always been a big part of her life. Especially as a source of inspiration for colours, shapes and products.

Martin has always sailed throughout his life and water, air and nature means a lot to him. We are very concerned about taking care of nature and each other, and for the same reason it was obvious that TINTOK arose.

QUALITY & CARE

Tintok's collection only consists of 100% GOTS certified bags that are designed with love and uniqueness in the best quality and with the tastiest design, without compromising on anything.

We only advocate quality over quantity.

We are both very dedicated, passionate and present throughout the process from idea to final product. Our products are all an alternative to rapidly changing trends and fast fashion.

We have carefully selected all our suppliers, based on their ethical sustainable values, all of which meet the UN's global sustainability goals.

For the same reason, all our products are always produced with consideration for the environment, people and animals.

We have chosen to cooperate with a few, good and certified factories that share the same values as us, and which does not compromise on quality, environment or working conditions.

Our core is a promise to our customers that by investing in Tintok, they get a product that is durable, of high quality and in a timeless design.

WHY TINTOK

The name TINTOK did not come about by chance. Not at all. In reality, we spent a lot of time and thought about our name.

So why Tintok?

We think it is important to have a short, easily recognizable and international name. Tintok is a combination of Mart**TIN** and **TO**ystrup and the last **K** is for Love - Love for our planet, for humans, for animals, for nature and of course for each other.

Our slogan - or statement if you will, is called: The Sustainable Lifestyle and again this is an underlining that we want more people to take a stand and take responsibility for their buying habits and consumption. Our bags are made in a durable quality that can withstand a lot. The bag can be washed at 30 degrees and all our bags are minimalist in their expression without prints and patterns.

The bags are designed to last a long time, and could be used for all everyday tasks: shopping, sports, school, work, travel etc. The bags are designed based on a mindset that everyone can use our bags: children, adults, young people, old people, women and men.

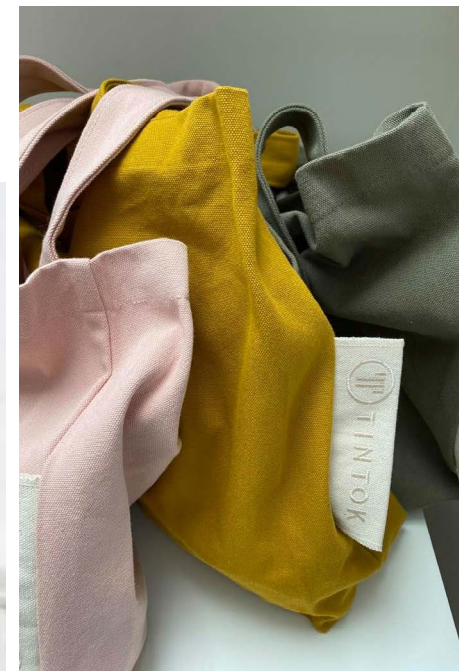

The bag for everyone and for all of life's tasks.

GOTS CERTIFICATION

We have our very own license number, with which we are audited once a year by GOTS/Control Union, which must be approved and a sample check of our products according to the GOTS certification.

We got our own license number in 2021, and have a certificate that can be looked up in the **GOTS online database**.

We spend a lot of time finding the right suppliers. All our suppliers are European and they are all GOTS certified, which makes us and our customers safe in terms of restrictions around chemicals, dyes, working conditions and the use of organic cotton.
